MAKE UP

DO NOT PRESS. Using a flat seam, join leg and foot seams. Thread ribbon through holes at ankle. Embroider as illustrated if desired. 

FIRST — Check your Tension.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — 2 Stitch Holders for Socks; Milward Knitters Needle for sewing seams; 1 Maxart Button for Jumper; 1 3.25mm (No 10) double pointed needle for Socks.

ABBREVIATIONS — See page 36.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you should knit a tension square.

Loose Tension will cause the garments to stretch, drop and rub.

Tight Tension will make the garments too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garments will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo on page 9.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garments (you

may unravel your tension square and use the yarn in your garments). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

FLAT SEAM

This method is sometimes used for knitted garments but more often for crochet garments. A flat seam may be worked from either the right or the wrong side of the work. Place the 2 pieces of fabric evenly together and sew stitch by stitch, always bringing the needle up from underneath to top through the centre of the stitch, then in same manner through corresponding stitch on second piece of fabric.

Note — Diagram shows knitted fabric, but method is the same for knitting or crochet. Always keep work elastic — there should be as much stretch in your seam as there is in the rest of your garment.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — 3 Stitch Holders for **Dress**; 2 Stitch Holders for **Cardigan**; Milward Knitters Needle for sewing seams; 4 Maxart Buttons for **Dress**; 5 Maxart Buttons for **Cardigan**; Length of Ribbon for **Dress** and **Bonnet**.

ABBREVIATIONS — See page 36.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you should knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo on page 9.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric ruler across the centre of the square and mark 10 cm with pins as shown in photo on page 9.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

DRESS (worked in one piece to armholes).

Using 3.25mm Needles, cast on 193 (225-241-265) sts.

(NOTE — If this number of sts will not fit comfortably on needle, we suggest using a circular needle.)

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — Milward Knitters Needle for sewing seams; 3 (4-4-5) Maxari Buttons.

ABBREVIATIONS — See page 36.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you **should** knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo on page 9.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

TO MAKE A TWISTED CORD

Method requires two people. Take as many strands of yarn as required, approximately three times the length required for the finished cord. Knot each end and slip a pencil between strands. Each person holds yarn just below pencil with one hand and twists pencil clockwise with other hand, keeping yarn taut. When yarn begins to kink, catch centre over door-knob or back of chair. Bring pencils together for one person to hold, while other grasps centre of yarn, sliding hand down and releasing at short intervals, letting yarn twist. Knot ends to prevent unravelling.

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — A Cable Needle; 3 Stitch Holders for Jumper; 2 Stitch Holders for Socks; Milward Knitters Needle for sewing seams; 3 Maxart Buttons for Jumper; Length of Round Elastic for Pants and Socks.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you should knit a tension square.

Loose Tension will cause the garments to stretch, drop and rub.

Tight Tension will make the garments too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garments will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric rule across the centre of the square and mark 10 cm with pins as shown in photo.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garments (you may unravel your tension square and use the yarn in your garments). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

NEEDLES — Milward or Patons

1 pair each 3.25mm (No 10) and 2.75mm (No 12) or sizes needed to give correct tension.

ACCESSORIES — 3 Stitch Holders; Milward Knitters Needle for sewing seams; Stranded Cotton for embroidery if desired; 3 Maxant Buttons.

ABBREVIATIONS — See page 36.

TENSION — 29 sts to 10 cm in width over stocking st.

Why you should knit a tension square.

Loose Tension will cause the garment to stretch, drop and rub.

Tight Tension will make the garment too small, with a hard fabric that will matt during washing.

With **Correct Tension**, your garment will look like our photo.

Using 3.25mm Needles, cast on 43 sts.

Work 58 rows stocking st.

Cast off loosely.

Lay your square on a flat surface, place a metric ruler across the centre of the square and mark 10 cm with pins as shown in photo on page 9.

Count the number of sts between the pins.

You should have 29 sts.

Less sts means loose tension — try needles a size smaller.

More sts means tight tension — try needles a size bigger.

When you have achieved the **correct tension**, use the same needles to knit your garment (you may unravel your tension square and use the yarn in your garment). Remember, if you need to change the needle size to achieve the correct tension, you must also change the size of needles used in bands, etc.

THE **Patons** HAND KNIT STAR ★ RATING — TO HELP YOU TO CHOOSE THE PATTERN SUITED TO YOUR KNITTING ABILITY.

- ★ One star says this is a **beginner level** of knitting. Knit and Purl stitches, casting on and off and some basic increasing and decreasing.
- ★★ Two stars mean **easy knits**, with knit-purl stitch patterns, simple lace patterns (no shaping in the lace), slip-stitch patterns, and cables.
- ★★★ Three stars are for **advanced knitters** requiring some specialised knowledge, such as Fair Isle, Aran and more complicated lace patterns.
- ★★★★ Four stars signal a **challenge knit**. There can be make-and-lose patterns, complicated shaping, and any technique that requires a higher level of concentration.
- P The letter **P** after any star grouping suggests that an additional degree of patience is required for a quality finish.
